

It's all about trust

TFS

TFS, with headquarters in Lund, Sweden, is the largest non-listed European clinical Contract Research Organization (CRO). Clinical services are provided by four business areas: TFS Explore™, TFS Develop™, TFS People™ and TFS Academy™, with annual net revenue greater than € 40 million, global operations in 21 countries, and 500 employees worldwide. Detailed information about TFS business areas, global locations and recent press releases can be obtained at www.tfscro.com

Medical Advisor

TFS is a CRO with highly committed and competent employees, who either work as outsourced consultants at pharmaceutical or biotech companies, or work with project assignments in-house. On behalf of one of our customers we are looking for a qualified medical doctor for an assignment as a medical advisor in clinical trials and drug development. Our client is a large pharmaceutical company with offices in Stockholm.

The main responsibilities of the medical advisor will include:

- Responsibility for clinical trials in the region as a primary medical contact person regarding these studies, answering questions and responding to queries as needed.
- Performing data analyses for pharmacovigilance and drug safety issues.
- Contributing medical expertise in the design and implementation of clinical trials, including the writing of medical background material, study protocols and synopses.
- Developing and maintaining an extensive network of contacts with participating clinical trial sites and key opinion leaders.
- Participating in the training of internal and external personnel.
- Participating in approval of local marketing and sales promotional material.
- Participating in international and local projects to identify new areas of development.

Requirements/Qualifications:

- Medical training is a requirement. Specialist training in oncology, general or internal medicine is an advantage.
- Fluent spoken and written Swedish and English is an absolute requirement.
- You should have an interest in clinical research and experience of collecting and assimilating medical and scientific information.
- You should have good communication skills and an interest in establishing and maintaining strategic scientific relationships.
- A medical advisor is a bridge between clinical practice and drug development so you should have a strong interest in using your medical experience in the pharmaceutical industry.
- You must enjoy working in multi-disciplinary and project teams.

It's all about trust

TFS Trial Form Support will offer:

A dynamic and growth-oriented organization with a work environment distinguished by professionalism, integrity and responsibility.

Welcome to join us and to contribute in placing TFS among the top 7 worldwide CROs.

Your job will make a difference!
