The Growth Ranking List 2005 - Another top position for TFS!

TFS Trial Form Support, a Swedish consulting firm working with clinical contract research, is noted as holding one of the top positions in terms of growth for the second year in a row. According to the Growth Ranking List for 2005, presented by Ahrens Rapid Growth and the leading Swedish newspaper Svenska Dagbladet (SvD), TFS, Trial Form Support, was ranked as the number three company of 2004 and took fifth place this year, 2005.

We are very pleased and proud of the fact that we are still considered to be one of the fastest growing companies in Sweden. Especially when one takes into account that we have already been in business for 9 years. This year, we did not only receive fifth place among the companies in Sweden, we also received first place among the companies in the Skåne region. This is very important considering that TFS' headquarters are based in the city of Helsingborg in Skåne. This year's prize and ranking is TFS' third since since 2001. Needless to say, most companies cannot claim such an achievement. Our skilled personnel and management team are extremely important factors in the success of a consulting company such as TFS and this is something that we always keep in mind. Considering the developments of TFS to date, I have all reason to expect that we will be placed among the top companies in terms of growth next year as well. We have some imperative strategic decisions to make shortly that will secure our growth for many years to come." says Daniel Spasic, CEO and founder of TFS, Trial Form Support International AB.

258 companies were nominated to the Growth Ranking List this year, 44 of which fulfilled the criteria for the list. Being placed on the list is not only a reward for the company's good results and rapid growth but also evidence of new thinking and of good entrepreneurial spirit that hopefully will inspire and challenge other companies and corporations to increase their growth and to be nominated in the future. Ahrens Rapid Growth and Svenska Dagbladet have published the Growth Ranking List annually since 1994.

"It is impressive that a company can grow as rapidly, profitably and persistently as TFS Trial Form Support has done. It is a great achievement," says Thomas Ahrens, founder of Ahrens Rapid Growth.
